PROFESSIONAL EXPERIENCE

Septa Software

Sales Associate (Hybrid) **July 2026 – Present**

Functions

- Identify, research and engage prospective customers for software solutions using targeted prospecting, digital outreach and referral channels.
- Understand client business processes and requirements to position suitable software solutions and demonstrate their commercial value.
- Conduct product presentations, demonstrations and discovery conversations with prospective clients and decision-makers.
- Manage the sales pipeline from lead generation and qualification through follow-up, proposal discussions and deal progression.
- Develop personalized outreach and follow-up communication to nurture prospects and maintain engagement throughout the buying journey.
- Maintain accurate prospect and opportunity records in CRM systems, including sales stages, activities, next steps and pipeline updates.
- Collaborate with product and technical teams to communicate customer requirements and support solution-focused sales conversations.
- Build strong client relationships and identify opportunities for software adoption, account growth and additional services.

Efficacy Professional Services
Sales Consultant (Remote) **November 2025 – Present**

Functions

- Identify and research potential clients through digital platforms, company websites, directories, databases and targeted prospecting tools.
- Develop and maintain a consistent pipeline of qualified prospects across tax, accounting, advisory and professional service offerings.
- Draft and support structured email outreach, follow-up and lead-nurturing sequences for prospective clients.
- Conduct outbound calls and personalised outreach to engage decision-makers and generate qualified sales opportunities.
- Present company services clearly and persuasively, aligning solutions with each prospect's business and compliance needs.
- Schedule discovery meetings and follow-up sessions with qualified prospects and key decision-makers.
- Use CRM and prospecting tools to organise leads, track activities and maintain accurate pipeline records.
- Collaborate with internal teams to refine targeting, messaging and sales strategies and support deal progression.

SwiftXR
Technical Sales Executive (Remote) **August 2025 – June 2026**

Functions

- Drive the full sales cycle for SwiftXR's XR solutions, from lead generation to contract close.
- Deliver tailored technical demonstrations and proposals to prospective clients; translate complex requirements into actionable solutions.
- Manage multi-channel outreach campaigns and maintain accurate CRM records with pipeline stages and follow-ups.
- Collaborate with product and engineering teams to align offerings with customer needs and feedback.
- Conduct post-sale onboarding and ongoing account management to ensure customer success and identify upsell opportunities.
